# FINE MACKAY YEARLINGS

LIST OF CHOICE FRENCH-BRED YOUNGSTERS TO BE SOLD IN NEW YORK.

Probably the Advance Guard of More to Com from France in Consequence of Favorable French Governmental Action.

New York, November 15.—Quite a few consignments of thoroughbreds may be expected to arrive from France during the next few months. In fact, it will not be surprising should every young horse owned by Americans be brought here, as well as others which may be purchased by Americans from foreign owners.

owned by Americans be brought here, as well as others which may be purchased by Americans from foreign owners.

The Clarence H. Mackay yearlings will be shipped from France about December 1 and are expected to arrive here about twelve days later, as they will come via England. Charles F. Hill, who has looked after the Mackay thoroughbred interests for many years, was to have sailed on the Rochambeau a few days ago, but missed connections by a few minutes. There are thirteen yearlings in all," said Mr. Hill, "and I doubt if there are many better bred in any country. They will all be sold at public auction on December 23, at Durlana's Exchange, where they will be taken directly upon their arrival. Among them are two by Rock Sand, five by Meddler, two by Uncle, one by Phoenix, one by Mordant out of Miss Ellie, the dam of Aeronaut, and one by Sundridge, a celebrated English sire. The mares are mixed, the majority being American-bred and the remainder English and French.

"The general impression is that all young horses can be brought from France," continued Mr. Hill. "This is a mistake, as none but yearlings and weanlings have been released by the French government. No two-year-olds or older horses are permitted to leave the country, except stallions seven years old or over, and they must have served in the stud for at least three years. In other words, all the young and prospective sires will be retained. Mr. Mackay has lad three offers for the yearlings, one from an American owner and two from French owners, but he decided to sell them at public auction, where the blood would have a better chance to be distributed." Following is the list of the consignment and their breeding.

The French embargo having been lifted from the younger thoroughbreds, it is almost assured that this -country will practically be flooded with European thoroughbred blood. There is no means of calculating just how many horses will be brought over before the spring season opens. These, added to the importations from England which are arriving almost daily, will add considerably to the interest in racing during the coming year in this country. It is predicted in New York that the sport will receive an impetus of great importance, as the racing will arouse international interest. Again, the infusion of English and French blood into the American thoroughbred of the future will immensurebly build up and improve the American breed.

Even the liftle competition already seen in this country between the home product and the horses brought here by H. P. Whitney and Jefferson Livingston have been of great interest in turf circles. How much greater will be the interest when a field of starters combines the product of this country, England and France.

The death of Thomas H. Williams, which occurred last Saturday in California, may give Impetus to the movement for the restoration of racing in that state. Mr. Williams', political differences with the powers that were in control unquestionably instituted the adverse legislation enacted in California and the powers that were in control unquestionably instituted the adverse legislation enacted in California.

The death of Thomas H. Williams, which occurred last Saturday in California, may give impetus to the movement for the restoration of racing in that state. Mr. Williams' political differences with the powers that were in control unquestionably instigated the adverse legislation enacted in California in 1909. The successful race meeting recently held in connection with the exposition at San Francisco was the entering wedge for something further and, from all accounts, was encouraged by Governor Johnson. The death of Mr. Williams has practically eliminated all discord and left an opening that may prove beneficial to the racing interests of California. If the right sort of men take hold of the racing heim and ask for proper and fair legislation, it is said by influential advocates of the sport that Governor Johnson is not likely to object to racing underestrictive conditions, governed by men who have the sport at heart and financial gains as a secondary consideration. Under high-class control there is little question but that racing would be welcomed in California, especially in San Francisco, where it attracted thousands of winter tourists in days gone by. It helped to fill hotels, and from the resultant circulation of many thousands of dollars of eastern money, nearly every business profited. After a world's fair, history tells us, there is usually a decided slump in business, and this may prove a factor in the return of the thoroughbred. One cannot expect much in California this winter, but it is probable that ere another year has passed there will be a racing noise on the coast which it is hoped will be loud enough to re-establish racing there on a sound and sensible basis that will be of benefit to the turf in general, as well as to the financial welfare of the state.

Wild rumors are afloat as usual as to what is going to be done and what not in the Maryland legislature the coming winter. They arise chiefly from the disgruntled few who are not profiting by the sport as they believe they should. The mutuels an

### RICH PRODUCT OF THE YEAR FROM THE KENTUCKY RACING FIELD

Nothing is better known in the turf world or better established in security, popular favor and prosperity than racing over the Kentucky tracks, since the statute was enacted which placed them under the control and guidance of the Kentucky State Racing Commission. That body has directed its government in the paths of wisdom and conservatism. No doubt the immediate officials of the various tracks felt inwardly that the reins have been drawn too tightly in the matter of number of days allotted for racing, but on the whole resuits have vindicated the general course of the commission. The abounding present prosperity of the Kentucky tracks and their importance as a part of the general racing fabric were simply unknown quantities in their history prior to the advent of the State Racing Commission and the substitution of the pari-mutuels for all other methods of betting.

That horsemen have shared in the increased receipts of the tracks is shown quite conclusively by the steady advance from the total of \$355,999 distributed among owners of winning horses to the much greater total of \$367,731 this year. It will be quite in accordance with the spirit of the time to anticipate still better things in store for owners in the racing of 1916. It will be observed that Churchill Downs has led in daily distribution in all the years embraced in the following tabulation, but the older track was closely pressed this year by both Douglas Park and Latonia. The following particulars of the steadily increasing output of the Kentucky racing field cannot fail to interest patrons of the turf:

# RAIN AND MUD AT BOWIE

DISAGREEABLE WEATHER CHANGE DOES NOT DAUNT THE PATRONS OF RACING.

Celto Defeats Naushon in an Interesting Finish in the Main Race of the Afternoon-Heavy Shipments of Horses for Havana Today.

Baltimore, Md., November 15.—Bowie offered as a feature race this afternoon an all-aged handicap at one mile. It brought a well-balanced field to the post and furnished an interesting contest with the winner turning up in Celto, which beat Naushon less than a length after a long and hard stretch drive. It was the first victory that Dr. J. S, Tyree has scored in some weeks. Turner rode a good race on the filly, nursing her along in the early running for a final effort when the deciding drive came.

There was a decided change in weather conditions, a cold, raw wind blowing up the track during the morning. Wraps and top coats were a comfort rather than a burden. The track was muddy from yesterday's rain, but kept drying out as the afternoon progressed.

Phil Musgrave was forced to stand a \$400 raise, after his sprinter Joe Blair had won the third race. Joe Blair made all the pace and won by a comfortable margin. W. C. Capps and George P. Sherman advanced him from \$500 to \$905, at which figure he was bought in.

Brandywine came out of his race lame. The horse struck himself during the race, but trainer James Arthur has hopes that the injury is not of a serious nature.

Charles Lansdale, who will act as one of the stewards at the Havana track, was an arrival from Cincinnati this morning and will remain over for several days. He received a cablegram to the effect that the horses recently shipped from Kentucky had arrived safely in Havana. Mr. Lansdale predicts a great meeting in Cuba next winter.

E. K. Bryson has purchased the plater Scorpii from J. O. Talbott. Mr. Talbott has fired Gino. Slumber II., Night Stick and Vermont and they have been laid by for the year.

Ten Point will stand at J. S. Barbee's farm and Cock o' the Walk at H. P. Headley's.

The first big shipment of horses for Havana will leave tomorrow, and will consist of six carloads. In the consignment are the horses of J. G. Wagnon, J. O. Burttschell, W. C. Westmoreland, G. E. Ridge, J. Strite, W. Gargan, H Herdel, R. D. Carter, W. B. Smith, T. Cheek,

The horse breeding industry in East Prussia is hadly crippled for many years as the result of the Russian incursion there. Herr von Oettingen, who succeeded the late Count Lehndorff as director of the Prussian government studs, has reported to the government that the Russians took away 20,000 broodmares of the highest class and uproofed the foundation of the horse breeding industry in that country.

Jockey J. McTaggart was married at Baltimore Saturday to Miss Marie Cecelia MacDonald of Camden, N. J. It was a church wedding and a reception followed the ceremony at the home of Thomas McTaggart, 4922 Park Heights avenue, a brother of the groom, with whom he has been stopping. Mr. and Mrs. McTaggart later left for New York, where they will spend several days, and on their return will reside at Arlington.

At Newmarket, October 27, trainer Cliff Hammon bought for E. R. Bradley the six-year-old bay mare Santa Anna II., by Martagon out of Philomarden. by Marden—Philomel, by Philammon, mated with John o' Gaunt. On the next day he bought Padula, a nine-year-old brown mare, by Laveno—Padua, by Uncas or Thurio, mated with Holiday House, and the four-year-old bay or brown filly Valla, by Fariman—Padilla. Evidently Idle Hour Farm is to be well reinforced with English broodmares.

Peter De Lacy, one of the foremost figures in the New York racing world for many years, is dead following an operation for gall stones in St. Luke's Hospital. Although seventy-one years old, he was, until last Thursday, considered to be in good health, but on that day he went to the hospital, the operation proving fatal. Since the repeal of the Percy-Grey betting law by the legislature in 1908 the name of "Pete" De Lacy has been seldom heard, atthough for years it was one of the most common names mentioned. Persons who know say he, having amassed a fortune in conducting pool rooms and, was really largely responsible for the repeal of that betting law.

# THIRTY LEADING AMERICAN JOCKEYS.

J. McTaggart rode in good form and good luck last week and with the excellent score of eight winning mounts added materially to his record for the year. No other Jockey was close to him in the week's record, J. McCahey and R. McDermott with four wins each being in a tie for second to him. The two crack riders J. Butwell and T. McTaggart lad to be content with one success each, while M. Garner drew a blank. It will not be long now until the opening of racing at Juarez will afford some of the riders who are idle at present a chance to add to their successes in the saddle. In the meantime the present standing of our thirty most successful riders of the year is:

Phoenix. Ariz.. November 15.—A test of the legality of the pari-mutuel betting machine in the state of Arizona is before the Maricopa County Supreme Court on an information filed with that court charging that such a machine was operated on the Arizona state fair grounds in connection with a race between Hellbender, a Yavapai County Norse, and Nantilla. a California animal. The race was over a half-mile, for a purse of \$2,000, and Hellbender won easily.

The race was used by friends of the pari-mutuel machines as an opportunity to bring about the test case through operating and filing information. The sheriff's office agreed to take the case over the justice court, directly to the superior court, in order, if possible, to get an early decision.

The Arizona law prescribes which games do and to not come under the head of gambling. Faro and roulette are classified as problibited for the reason that they come under the head. The attorney for the Racing and Fair Association contends that the mutuel form of speculation does not come under the same classification, and that for that reason a race meeting with the machines in use would not be in violation of any Arizona state law.

New York, November 15.—A. K. Macomber, the latest millionaire to buy thoroughbreds, resides in Burlingame, Cal., and is an enthusiast on racing and polo. He married Miss Myrtie Harkness, a daughter of the late L. V. Harkness, who left an immense fortune, her share of which was said to be in the neighborhood of \$50,000,000. The Walmut Hall estate in Kentucky, the home of many trotters and pacers of note bred by the late Mr. Harkness, will probably have an enclosure set apart for the thoroughbreds in the future, now that Mr. Macomber has turned his attention in their direction.

The case involving the lease to a fair association of the Empire City track is to be heard tomorrow at White Plains. The stables have been used for army remounts for the war and charges were made that the buildings had been so affected by disense from the horses quartered in them that they would be dangerous to thoroughbreds. The Empire City race meeting was transferred this year to Belmont Park, owing to this belief. The lessees now seek relief by having the lease, which still has several years to run, declared void.

# RICH. PRODUCT OF THE YEAR FROM THE KENTUCKY RACING FIELD. (Continued from first page.)

Of the many capital racers engaged in the sport in Kentucky five were winners of \$10,000 or more, with Hodge first in this quintette. He was not the best horse in Kentucky racing, but he was a good one, hardy, speedy and emphatically a stayer. Unluckily for him and his owner he stood so high in the esteem of the official handicapper in the fall stakes that he was awarded imposts beyond his capacity, else he probably would have figured still higher in the year's returns. The two Thompson stars, Regret and Borrow, were the two best horses raced in Kentucky this year, but the Latonta Derby winner. Royal II., was beyond doubt a good colt. However, leg infirmity enforced his early retirement from racing. Prince Hermis was a shade better than a useful handicap horse and Star Jasmine and Waterblossom were fine mares. It may be doubted whether there was a high-chass two-year-old out, but Blackie Daw, Bulse, Checks, Kinney, Big Smoke, Marse Henry and some others raced well enough to become good three-year-olds if making normal growth and improvement through the coming winter. A large number of horses won \$300 or more and they are the following:

A dispatch from New York says: Robert Fay, who, after fighting in the trenches for Germany came to this country to carry out a plot for destroying ships sailing from this port with munitions of war for the allies, sent a hurry call from his cell in the Tombs for William J. Flynn, chief of the secret service, and John C. Knox, special assistant United States attorney. For more than an hour the chief talked with Fay in the counsel room. What was discussed by the head of the secret service and the bomb-plotter could not be learned. From reliable sources, however, the following three significant facts were lehrned: 1. Fay has offered to turn state's evidence. 2. The story which Fay already has told about himself has been verified in Europe. 3. The United States government has evidence corroborating Fay's story connecting the German secret service with the plans to wreck munitions, ships, and blow up or set fire to munition fectories in this country. More revelations concerning the activities of German agents in this country are expected.

revelations concerning the activities of German agents in this country are expected.

The Italian government has sent an official communication to the neutral governments dealing with the sinking of the liner Ancona. The note deales that the Ancona carried any arms or contraband or persons in belligerent military service or that there were any circumstances justifying such an attack. The note declares that the submarine began to cannonade the Ancona without any previous warning or a blank shot, and fired without respite at the wireless apparatus, the decks and even at the boats in which passengers were attempting to escape. "Many of these," adds the note, "were killed or wounded, while many who approached the submarine were driven off with jeers. Thus nearly 200 persons were drowned."

Four more ships have been sunk by submarines of the central powers. All on board were lost, it is believed, when the French steamship St. Malo, of 1,243 tons, was sunk by a German submariae near the island of Guernsey in the English channel. Twelve bodies have been washed up. Other victims were the Norwegian steamship Waseana, 4,969 tons, the crew of which were saved, and the Italian steamship Bosnia, 2,561 tons. Two boatloads of the Bosnia's survivors have been picked app. A boat containing mineteen others is missing. The Bosnia was sunk near Ghando Island, south of Crete, by an Austrian submarine. The Spanish steamship Bernabe, of 2,288 tons, registered at Bilboa, has been lost. Ten of the crew of twenty-four are missing.

Thirty persons are dead in the fortified city of Verona as a result of three Austrian aeroplanes dropping bombs on the city. Thirty other persons were seriously and nineteen slightly injured. Nineteen persons were killed by one bomb. The bombs of the aircraft found most of their victims in the principal square of the city—Piazza delle Erbewhere citizens and peasants from the outlying districts were attending the market. The aeroplanes visited various parts of the city, but none of the military buildings. This is the second time Austro-Hungarian aeroplanes have made a raid on Verona. Last July an Austrian machine dropped about a dozen bombs and escaped, notwithstanding a fire directed at it by the forts defending the city.

The liberal party in Greece may not participate in the coming elections, although the matter has not yet been decided. Former Premier Venizelos, leader of the party, so indicated to a deputation of merchants and manufacturers who came to him urging him to pursue his struggle against the opposing influences in Greek politics, a Havas dispatch from Athens states. Replying to the deputation, M. Venizelos said he thought it would be preferable if the liberal party took no part in the approaching elections, as even if it obtained a majority in the chamber it could not carry through its program. The party, however, would decide definitely in a few days, he said.

A large increase in compensation has been granted the railroads of the middle west for the carrying of mail during the four-year period which began July 1 last. The recompense of all the roads in this territory, numbering three of the four sections into which the country is divided, is fixed at \$20.073,484 a year for all the roads. In 1907 the pay in this section was \$15.772.677. The mail is carried over 67.375 miles of track. The pay is shared by 151 roads. The district embraces Ohio. Indiana. Illinois, Michigan, Wisconsin,

In the Balkan war theater the Serbians are falling back from mountain range to mountain range before the Austro-German forces, whose official reports enumerate the capture of many prisoners daily, a few guns, and quantities of stores. The Serbians appear to be inflicting considerable losses on their pursuers. Along the eastern front King Peter's men seem to be holding their own against the Bulgarians. The British and French troops are meeting with some success, and besides repulsing the Bulgarian attacks have undertaken small offensive movements with good results.

Rome newspapers say that the Austrian submarines which are now so active in the Mediterranean were shipped in pieces from Kiel, Germany, to Triest, accompanied by German mechanics and naval officers. From Triest they were taken to the Austrian naval arsenal at Pola, where they were assembled. It is also reported that supply stations for these submarines, which fly the Austrian flag, have been established along the Greek coast. A protest was made several weeks ago by the Italian consul at Patras on the ground that the neutrality of Greece was being violated.

Sir Cecil Spring-Rice, the British ambasador, yesterday asked Attorney General Gregory not to oppose appeals to the Supreme Court in the cases of Ralph K. Blair and Dr. Thomas Addis, convicted recently in San Francisco of enlisting men in the United States for the British army. The questions involved, the ambassador believes, are of much importance not only to Great Britain, but to the United States, particularly if this country became engaged in war. The attorney general was unable at this time to outline the position of the department.

A Berlin report of yesterday says: A defeat of the Russians in Galicia is announced today by the war office, which says that the troops of General von Linsingen drove back the Russians from the west bank of the Styr river. The entire west bank has now been cleared. Russian attacks near Smorgon, east of Vilna, were repulsed. On the western front the Germans stormed a French trench 300 yards long, northeast of Bourle.

George Burkitt, assistant postmaster of Winnetka, who was summarily suspended for criticizing the coming wedding of President Wilson and Mrs. Galt, was ordered reinstated yesterday by the president, according to dispatches from Washington. With this announcement came the news that some citizens of the North Shore suburb were starting a movement to have Postmaster A. M. Kloepfer, who suspended Burkitt, removed.

London reports that the Russians, after repelling German attacks in the Riga and Dvinsk regions, have taken the offensive. The czar's official report makes no mention of this move, but tells of German defeats in this sector. Both German and Russian reports describe desperate fighting in the vicinity of the Styr river in the south, the Teutons capturing many prisoners.

The Great Northern steamship Minnesota, the largest vessel on the Pacific ocean, is on its way today from Seattle to the Atlantic ocean, and with its departure the American flag has disappeared from the oriental trade. The Pacific Mail Steamship company's fleet was dispersed before the Minnesota closed, its career as a trans-Pacific liner, to engage in the Atlantic trade.

A cold drizzle which turned into a small snow flurry for a few minutes Sunday afternoon in some sections of the city spoiled Chicago's chances for attaining a new late snow record. As it was, there was some difference of opinion as to whether it was sleet or snow and could be classified officially as the "first snow."

The Italian cruiser Piemonte bombarded and de-stroyed the railroad station at Dedeaghatch, Bul-garia, on Friday. The warship also detroyed two trains made up of eighty cars loaded with war munitions.

#### EXPERT ESTIMATE OF POMMERN'S CLASS.

There has naturally been a good deal of discussion as to whether Pommern is entitled to take rank as a high-class Berby winner, and I think it will be generally agreed that the outcome of such discussion has been entirely favorable to Mr. Sol Joel's colt. Not since 1903, when Rock Sand won what is usually described as the property of the contended that there is a great difference between winning the Two Thousand Guineas at Newmarket, the Derby at Epsom, and the St. Leger at Doncaster; and a similar achievement over practically the same ground every time, it seems to me that the difference serves to emphasize superiority rather than to discount it.

It requires, of course, borse to succeed in the regular series of classic contests. At Epsom, for instance, adaptability is especially requisite, it being necessary for a horse to be equally at home up and down hill and to be capable of handiness where turns have to be taken. At the same time the element of luck enters so largely into the contest that it is a mere truism to state that the undoubtedly best horse has been halked, or shuffin, or interfered with in some way, and thereby examine in point was afforded when sly Martin eli while making the descent round Tattenham Corner, and there are, I imagine, few people who are grepared to argue that Mr. Louis Winan's unlucky colt was not thereby robbed either of victory outright or place honors.

The fact, therefore, that this year's classic races—the first one the real Two Thousand Guineas, and the others substitutes mamed the New Derby and September Stakes—have all been decided over the property of the three races, or been in any way lucky to score, it would have been a different matter; but no series of victories could have been more easily achieved or more smoothly carried through, and Foundard the weak and the best of bis contemporaries. The only exception that can be taken to the latter statement would apply to Redfern, which on account of the lamented death of Earl Cadogan, was sold to go abroad; but he would be

# LAST OF THIS YEAR'S ENGLISH RACING.

Cotober 29 was the last day of the Newmarket Houghton meeting and, also the last day of flat racinf, probably of any racing in England this year. The knowledge of this was so sent a big crowd to the Heath in anything but a jovial mood. But it so happened that a variety of incidents of a nature pleasing to the British race-going public attended the racing and the assemblage finally broke up in good spirts. In an editorial summary, London Sporting Life said of the day's proceedings:

"The flat racing season came to a most appropriate conclusion yesterday afternoon, when the last race resulted in a dead heat between two horses owned by an Englishman and a Frenhman. The Frenchman was M. de St. Alary, who for some time past has had a few horses in training with Mr. Gilpin at Clarchaven. Newmarket; and the Englishman was none other than the Director of Recruiting. Lord Derby. To carry the parallel still further, the two horses, Khedive HI. and Hasta, are representatives of the breeding studs of the allied countries, and altogether this cementation of interest, in a sporting sense, may be accepted as a singularly happy augury for the future.

"Khedive HI., which had run on so gamely into third place for the Cambridgeshire, was expected to win this Final Plate, for the good and sufficient reasons that the extra distance would be in his favor, and the improved going would also assist him. There was, nevertheless, a considerable following for Hasta, in spite of the fact that she was meeting Bydand on no less than nineteen pounds worse terms as compared with the Royal Stakes at the Second October meeting, in which, it will be remembered, she bowled over the long odds laid on the Kingsclere representative. Since then Lord Derby's filly has had a cut at Pommern—in the Limekiln Stakes on Tuesday—but although she experienced no difficulty in accounting for Let Fly, she proved totally incapable of making the least impression on the Derby winner, which was giving seventeen pounds. It might have been experienced no difficulty in

accident which befell his majesty on the previous day.

"Comment on the remaining races at Newmarket need only be brief. Although none of the competitors for the Houghton Stakes were definitely known to be able to stay a mile, Grassland was the general choice, and Mr. J. B. Joel's colt duly scored, though only after a terrific struggle with Lord Falmouth's Angelina. The well-backed Bombita took the Criterion Nursery, and in the absence of My Ronald the finish for the Durham Stakes was fought out by a couple of outsiders. Mr. Gilpin, by the way, provided the favorite in Lance Chest, and the six-year-old just missed a place. Amanthe, as anticipated, won the Two-Year-Old Maiden Plate, and the end came, as already related, with the dead heat between Khedive III. and Hasta."

# Monthly Racing Form

issued on the first day of each month, with complete charts of the previous month's racing in North America, now carries an index showing each and every start of all horses in training, with firsts, seconds, thirds and track conditions designated. By means of this arrangement it is possible for the user of the Monthly Form Book to instantly determine a horse's ability to run on any sort of track concerning which information is desired, as shown in the following examples:

h for heavy, m for muddy fast or good tracks.
